

BI-LATERALLY CONFINED BUCKLED ELASTIC SHEET: SPONTANEOUS SPIRAL

S. Deboeuf*, S. Protière*, E. Katzav°
* ∂ 'Alembert (CNRS - Sorbonne Université)
° Racah Institute of Physics (Jerusalem)

Geological folds:
different size, shape.

As stacked sheets?

[J Talbot, web, 2014]

[J Hall, 1815]

[G Hunt 2011]

What about a single flexible sheet?

BI-LATERALLY CONFINED BUCKLED ELASTIC SHEET: SPONTANEOUS SPIRAL

S. Deboeuf*, S. Protière*, E. Katzav°
 * ∂' Alembert (CNRS - Sorbonne Université)
 ° Racah Institute of Physics (Jerusalem)

[Roman & Pocheau 99]

What about a single flexible sheet?

Thanks to Nassim, Célie, Vincent, Sophie, Antoine, Alexandre & François; T. Bastien & L. Quartier ;
 A. Abramian, F. Bertails - Descoubes, O. Devauchelle, E. Lajeunesse & S. Neukirch.

Bonne retraite!
